

prempoint[®]

Make a point to simplify your access management.

Realtors and **property managers**

Spend nearly **50%** of their time

managing **agents, tenants, vendors,** and **staff**

coming on and off their properties.

Little to no insight on...

Who was on the property?

Which property were they at?

When did they arrive?

How long were they there?

What did they do?

Background

Paul Ward
CTO, Co-founder
Prempoint Inc.

- 18 years as a software engineer at IBM
- Extensive standards experience in SQL, networking, and open source
- Personal experience with managing rental properties

Prempoint[®] is a keyless access management system.
No keys. No codes. No cards.

DEMO

<https://vimeo.com/prempoint/subscribe-urls>
