- Property Unique IDs

Additional Targets

- Transaction Management
- Tax
- Statistics / Analytics
- Evolving Tech / VR
- Teams
- CRM
- Back Office
- Internet of Things
- DOE / Green Data Sources

Value

- % Fields * Time (Mapping/QA/Sup)
- Inaccuracies & Risk
- Consistent Member/Consumer Experience
- Innovation / Quality / Options

Practical Needs

- Aggregation
- Integration
- Innovation
- Control
- Involvement

Aggregation

- Quick Setup of New Data Sources
- Lower Cost Per Cycle for ETL
- Reduction of Errors
- Consistent Data
- Higher Quality
- Lower Cost

Integration

- Lowers Barriers
- Interoperability
- Streamline Workflows
- Higher Quality
- Lower Cost

Innovation

- Lowers Barriers
- Robust, Consistent MLS Data Set
- Quick to Incorporate New Customers
- Larger Customer Base per Build
- Profitability Attracts Talent
- More Utility / Lower Cost

Control

- Consistent Definition
- Consistent Data Sets
- Less Replication
- Media Handling
- Utilization Tracking

Involvement

- ddwiki.reso.org
- adoption
- worksheet participation
- workgroup meetings
- communicating needs
