Review RESO Antitrust Policy: Suzanne Biegenzahn or Workgroup Chair
  ○ RESO strives to increase competition in the marketplace and will not be a forum for anti-competitive conduct. The RESO Antitrust Policy governs the activities of RESO and its members, including this meeting. A link to the policy was emailed to you with the meeting agenda. Please consult RESO's counsel if you have any questions about the policy.

Discussion: Annotation Tag term construction format

○ The addition of annotations can be applied multiple times in many places in Odata. Web API uses some annotations to convey meaning. These uses of annotation should have a standardized form to ensure compliance and interoperability. Cases include enumeration and non-data dictionary names. The format may include a convention for namespace based on vendor or MLS.
