6. Annotation Tag term construction format discussion
7. Open Tasks
8. New business

Agenda - 1

- Review RESO Antitrust Policy: Suzanne Biegenzahn or Workgroup Chair
  - RESO strives to increase competition in the marketplace and will not be a forum for anti-competitive conduct. The RESO Antitrust Policy governs the activities of RESO and its members, including this meeting. A link to the policy was emailed to you with the meeting agenda. Please consult RESO's counsel if you have any questions about the policy.

Agenda - 2

- Status: RESO Web API v1.0.3

Agenda - 3

- Status: RESO Web API Security v1.0.3

- Status: RESO Web API testing rules v1.0.3

Agenda - 4

- Status: RESO Web API v1.1.0 (Update)

- Discussion: Annotation Tag term construction format
  - The addition of annotations can be applied multiple times in many places in Odata. Web API uses some annotations to convey meaning. These uses of annotation should have a standardized form to ensure compliance and interoperability. Cases include enumeration and non-data dictionary names. The format may include a convention for namespace based on vendor or MLS

2017 Fall Conference

- Open Tasks

- New Business
