RETS 1.x Status Update

Overview

- * Been a very busy year
- * 1.9 changes are 'In Progress'
- * 1.9 Highlights
- * Turning a corner...

RETS 1.9 Timeline

- * Complete RCP Changes by January 1st 2017
- * RETS 1 Workgroup review by March 1st 2017
- * Submission to RESO board March 15th 2017

If we finish earlier, we will submit it earlier.

RETS 1.9 Highlights

- * Additional support for Data Dictionary and WebAPI transition
- * Update Standards References to current versions ==
Improved support for third party libraries and security standards
- * Potential breaking change in RCP 108 with change to headers to use 'X-' form (RETS-Version, RETS-Request-ID, RETS-UA-Authorization change to X-RETS-Version, X-RETS-Request-ID, X-RETS-UA-Authorization)
- * Further corrections to the standard including Update Transaction

RETS 1.x turns a corner...

- * First RESO Meeting with no RETS 1.x Workgroup Session
- * The group has grown from ~50 people to 300+ people
- * Long Term Realities, RETS 1.x is 'over the hill'

That's All Folks!
