#### Where have we been...

#RESO18

Under all is the land. Upon its wise utilization and widely allocated ownership depend the survival and growth of free institutions and of our civilization. REALTORS® should recognize that the interests of the nation and its citizens require the highest and best use of the land and the widest distribution of land ownership. They require the creation of adequate housing, the building of functioning cities, the development of productive industries and farms, and the preservation of a healthful environment.

## Maybe where things are going...

Under all is the data. Upon its wise utilization and widely allocated ownership depend the survival and growth of free institutions and of our civilization. REALTORS® should recognize that the interests of the nation and its citizens require the highest and best use of the data and the widest distribution of housing data. They require the creation of adequate data standards, the building of functioning data repositories, the development of productive consumer facing technologies, and the preservation of a healthful environment for the exchange of data.
