What is it?

How does it work?

01 DATA GATHERING

Each MLS feeds their data into The Grid.

02 THE MAGIC

Data is filtered into ONE RESO standard usable format.

03 THE STORE FRONT

The consolidated, streamlined data is now accessible with your membership access key.

MEMBER/
SUBSCRIBER

Data Conversion Admin

The screenshot displays the 'Data Conversion Admin' interface. A 'Rule Settings' dialog box is open, showing configuration options for a rule. The background shows a table of rules with columns for field names and various flags.

Rule Settings Dialog:

- Reso Field:** YearBuilt
- IDX:** Yes
- VOW:** Yes
- BO:** Yes
- Handler:** transparentHandler
- Enum Field:** No

Background Table:

Field	IDX	VOW	BO	Enum Field	Handler
otsAndLand,				No	default
otsAndLand,				No	default
otsAndLand,				No	default
otsAndLand,				No	default
otsAndLand,				No	default
otsAndLand, RentalHome, ResidentialProperty				No	default
otsAndLand, RentalHome, ResidentialProperty				No	default
